67 Operations Report by Maintenance Technician Wes Harris:

- 68 • Provided Aircraft Rescue and Fire Fighting (ARFF)/Direct Ramp Observation (DRO) for Allegiant
69 flights, provided ARFF for American Airline daily flights, extra Allegiant Phoenix flights and provided
70 ARFF for charter flights.
- 71 • Conducted monthly ARFF drills and weekly training held on Part 139 Training, Safety, and
72 Transportation Security Administration procedures.
- 73 • A "Shooter in the Terminal" security drill was held Tuesday, July 28th with approximately 70
74 participants from federal, state and local agencies. The Central Nebraska Regional Airport was the
75 first airport to hold this drill in Nebraska and will be conducted every three years per Transportation
76 Security Administration requirement.
- 77 • Planning has begun on the Mass Causality drill scheduled for May 2016 as required by FAA Part
78 139.
- 79 • Continuous mowing and spraying weeds on airport property.
- 80 • Performed preventative maintenance on equipment.
- 81 • Repaired hangar door on Building 86 (T-Hangar G – Rich Schnase).
- 82 • Performed quarterly FBO fuel tank inspection in preparation for the FAA Part 139 inspection August
83 19-21, 2015.
- 84 • Car show will be held Wednesday, August 19th from 5-8 p.m.
- 85 • Stucco repairs followed by painting on Building 2A (Trego-Dugan Hangar).
- 86 • Constructing office in Building 2B (GI Clean Community Systems).
- 87 • Finished painting runways and taxiways.

- Provided construction support as needed.
- Numerous other daily projects and repairs completed and scheduled.

Earl Blasdel, Federal Air Marshall Service with TSA and Assistant Federal Security Director for Law Enforcement in the State of Nebraska, commended our airport for conducting the first full-scale exercise in the state. Blasdel stated you can't exercise this drill enough to find ways to mitigate a shooter and is looking forward to working with local law enforcement and SWAT team to provide active shooter training at our airport. Board Member Setlik appreciated everyone's efforts in putting this drill together and thanked those who participated.

Construction & Planning Report. Paul Strege reported that FAA signed off on plans for the cable relocation and Mead & Hunt is working with Hausmann Construction on change order pricing. The reason for the change order is FAA wasn't able to enter into a reimbursable agreement before the terminal passenger bid was released, but Mead & Hunt went ahead and added the cable relocation design and costs into bid document anticipating FAA approval. The cable relocation project is scheduled to start mid to late August and should take 2-3 weeks to complete. The cables have to be relocated before the parking lot expansion project phase II can begin which is slated for the first week in September. Mead & Hunt staff looked over the entire Terminal building and construction is going well but noted there is a delay with glass delivery. The Passenger terminal should be enclosed within 30 days. They also met and visited with the new supervisor for Hausmann Construction. Executive Director Olson wants a hard opening with the punch list completed before occupancy. Once the substantial completion date is defined, the one-year warranty on products begins.

TSA Federal Security Director of Nebraska Paul Ross addressed the Board with two issues of concern. The first concern is the Central Nebraska Regional Airport is the only airport in Nebraska (besides North Platte) that does not have Law Enforcement Officers (LEOs) on-site during flights. Ross stated the security landscape has changed since 9/11 and he strongly urged the Authority to obtain an LEO program for security purposes as it may be mandated in the near future. A federal program pays a stipend amount of \$20/hr which goes towards the cost to obtain LEOs but falls short of the actual costs. The Transportation Security Administration Officers are not law enforcement officers. Executive Director Olson stated he has made contact with the Grand Island City Mayor, Administrator and Police Chief to discuss options. The County Sherriff's office will be contacted to join in on the meeting as well.

The second concern is real estate for the TSA office. Ross would like space in the new terminal to accommodate the TSA officers with the minimum space of 1,680 sq. ft. Grand Island is the only airport where TSA offices are not located inside the terminal. Currently TSA is housed in Building A and battling odor and mold issues. The current site was proposed to them as a temporary site and renting office space in town is not an option. TSA has a three-year lease agreement with the Authority through September of 2017. Executive Director Olson stated it takes money to build a building, plus the General Services Administration (GSA), the leasing authority for Transportation Security Administration, is very difficult to work with. Board Member Quandt stated the airport is going through some growing pains and felt this issue will get rectified with time, but currently there are no additional buildings or space available for TSA offices. Quandt stated with the major projects that are currently going on and the added expenses in change orders, the finances are very tight and the Board must be financially responsible and look for solutions for future administration and TSA sites.

Of the two issues, Ross stated the law enforcement is his top priority.

CONSIDERATION AND APPROVAL OF RESOLUTION NO. 15-58: ENGAGEMENT LETTER WITH DANA F. COLE & COMPANY, LLP FOR FISCAL YEAR 2014-15 AUDITS.

209 EXECUTIVE DIRECTOR'S REPORT:
210

211 Wings of Freedom Tour was here July 13-15, 2015 with a very solid turnout and the Collings Foundations
212 was very appreciative of our efforts. Two authors, Kenny Kemp and Jerry Whiting accompanied the tour and
213 they said by far this airport has shown the most hospitality than any other city they have toured. The B-24
214 Liberator had engine problems and was unable to give any rides.
215

216 The Authority budget was presented to the Hall County Board of Supervisors on July 22nd and went very well.
217

218 U.S. House Republican leaders opted to delay the introduction and consideration of a Federal Aviation
219 Administration reauthorization bill until September at the earliest. The decision makes it likely that the FAA,
220 facing a reauthorization deadline of Sept. 30, will get a stopgap funding bill—perhaps lasting for a few months
221 or into mid-2016. Lawmakers are also likely to put off decisions about controversial issues such as the
222 proposed privatization of the nation's air-traffic control system.
223

224 The Board is looking into holding a Planning Session sometime in October to discuss future projects and
225 funding. No date was set.
226

227 ANNOUNCEMENTS:

- 228 a) Car Show August 19th from 5-8 p.m.
- 229 b) Next Board Meeting September 9, 2015.
- 230 c) A Special Board meeting will be scheduled to approve the Allegiant Orlando-Sanford and
231 Phoenix-Mesa Lease Agreements once agreements have been received.
232

233 EXECUTIVE SESSION:

234 *Motion by Cook, second by Quandt to go into Executive Session to discuss airline negotiations and lease*
235 *negotiations. Upon roll call, motion was approved with a vote of 4-0 and Board went into Executive Session*
236 *at 9:24 a.m.*
237

238 *Motion by Quandt, second by Cook to come out of Executive Session with no decisions being made and*
239 *reconvene to Regular Session. Upon roll call, motion was approved with a vote of 4-0 and Board came out*
240 *of Executive Session and into Regular Session 10:55 a.m.*
241

242 ADJOURNMENT:

243 *Motion by Quandt, second by Setlik to adjourn the meeting. Upon roll call, motion was approved with a vote*
244 *of 4-0 and meeting was adjourned at 10:56 a.m.*
